Dear Prof Inderjeet Singh Bakshi,

Greetings from Internshala!

Helping students of various backgrounds find internships for the past 5 years has helped us understand one clear skill gap that most students experience during recruitment process - **Communications Skills**. This includes basic resumé writing, effective communication, group discussions and interviews. I am pretty sure you would agree on this.

Keeping this in mind, we have created a **Business Communication Skills** training on our platform for students. This is an **online 4 weeks** course which students can do from their home and significantly improve their communication skills and confidence for the upcoming placements & interviews.

Why I strongly recommend this?

The training covers everything which we think is really vital for students to meet industry standards.

- 1) Essential Communication skills: Verbal & Writing skills
- 2) Resumé building & Cover letter Writing skills
- 3) Group Discussion and Interview Skills
- 4) Skills required at workplace: Email etiquettes, Presentation skills, Workplace conduct

How can your students avail this?

Simply share this link - goo.gl/jgwDrT and the coupón codé - **PLACEMENT10** (up to **55%+10%** discount for registered college students) with all your students. The coupón codé expires on **31st July**.

Apart from this, we provide a live chat support to students for the whole duration of the training. I am confident that this training will immensely help students prepare for placements and internships and will boost your placement records. Please feel frée to contact my colleague Aakash on +91 - 70420 72346 in case you have any questions regarding the training.

Look forward to a long and successful association.

Many thanks,
Kumar Kishalaya
